ESSENCE OF ANGELS – WISDOM OF THE ANCIENTS

The Essences are a gift from the Angels, Master Crystal Energies and the Ancient Mystery Schools of Atlantis, Lemuria, Egypt and the Mayan civilisation.

Simone Matthews, through her own profound journey in this lifetime, was guided to produce a range of vibrational remedies to assist people in their growth, attunement and personal empowerment.

Using an ancient form of alchemy called 'Archeon', Simone was guided to align high frequency Angelic energies with their Master Crystal Energy counterparts, and synergistically blend these energies with sound, vibration and sacred geometry.

The result is a range of exceptionally high frequency vibrational essences, that are programmed into the Grand Cycle of evolution to assist people in reaching their highest soul potential in this lifetime.

The Essences are major facilitators of change, assisting humanity in re-connecting with the Love & Peace within, hence creating a Heaven here on Earth.

The Essences are a set of 12 vibrational stock bottles, from which dosage bottles are made for your own personal use, family and / or clients.
