## The Privilege

*The relationship workshops sweeping Australia and America*

**Ordinary women and men possess the caring and capability  
to share in deeper and more meaningful ways**

Go beyond past relationship patterns.

Dispel the misunderstandings and mistrust  
between the genders.

Explore our deep connections as men and women.

Embrace the privilege of really knowing how the genders tick.

Shake out relationship myths and discover the strengths  
and natural wisdom each gender has to offer.

Join facilitators, Washuntara and Simone, as they foster new models  
of cooperation and leadership between and within the sexes.

It's fun ... it can be hard ... but above all it's rewarding.

"In the end, it's up to us."
