The Wave of Love is here.....

Universal Life Tools (ULT) is leading the way in awakening humanity with the launch of their new movie 'The Wave of Love'.

The Wave of Love is a short animated movie that helps people to awaken to their Divine Magnificence, and simply BE LOVE.

"The Movie awakens people to their Divine Beauty, the purpose of their Being and paths the way for all of humanity to resonate and fulfill the highest level of their soul's potential", says Simone Matthews CEO (Chief Empowerment Officer) of ULT and founder of the ULT Metaphysical School of Healing.

Further more, "Simply by viewing the movie and its symbolic representation of creation, activation and ascension through Sacred Symbols, we become conscious. As more and more people awaken, we have the potential to make the Great Shift toward 2012 a loving and peaceful golden cycle".

The movie is leading the way in connecting humanity with 'Love Waves', the energetic torsion waves that are emitted from our Galactic Centre, the centre of our Milky Way. To facilitate this conscious connection, ULT is orchestrating a Global Activation and Attunement program from July –Sept 2007, referred to as The Wave of Love.

Stage 1 – 777 Activation (7 July 2007 to 7 Sept 2007)

Lightworkers around the Globe are asked to view the movie on a daily basis to facilitate the Activation of dormant energy centres and our 64 DNA light codes

Stage II – 999 Attunement (9 Sept 2007 to 27 Sept 2007)

Through a series of daily Global meditations, humanity is given an opportunity to raise all awakened aspects to their highest level of vibration.
