The Essences are a combination of Angelic and Master Crystal vibrations, synergistically blended with sound, colour and sacred geometric vibrations.

The Essence of Angels are vibrationally aligned with the Light Code Octaves of Creation, and bring the healing wisdoms of the ancient civilisations into a contemporary setting. The Essences work with the energy systems of the body including the meridians, 12 chakra /energy centres, subtle bodies as well as on the physical cellular and DNA levels.

Essence of Angels healing compliments most other healing modalities synergistically improving health outcomes and patient compliance. As the Essences stimulate consciousness and awaken people to their soul potential, clients are consciously able to create health, abundance and joy within their lives.

The Essence of Angels – Wisdoms of the Ancients

The Essences are a gift from the Angels, Master Crystal Energies and the Ancient Mystery Schools of Atlantis, Lemuria, Egypt and the Mayan civilisation.

Simone M. Matthews, through her journey of awakening in this lifetime, was guided to produce a range of vibrational remedies to assist people in their growth, attunement and personal empowerment.

Using an ancient form or alchemy called 'Archeon', Simone was guided to align high frequency Angelic vibrations with their Master Crystal Energy counterparts, and synergistically blend these energies with sound, colour and sacred geometry.

The result is a range of exceptionally high frequency vibrational Essences that are programmed into the Grand Cycle of evolution to assist people in creating and fulfilling their destiny.

The Essences are major facilitators of change, assisting humanity in re-connecting with the Love & Peace that resides within, hence creating a Heaven here on Earth.

The Essences are a set of 12 vibrational stock bottles, from which dosage bottles are made for your own personal use, family and/or clients.
